Under date of February 21 Willett & lowing to say regarding the sugar sit

market and the point at which the continued decline will end and the improving side of prices begin.

Europe has entirely cut loose from Cuba and salvance in Cuba, the parity of beet values continuing above man parity and with indications that Europe has entirely cut loose from Cuba and is advancing on its own merits. Europe after inacting as 714d of its. Europe after touching sa 7½d, at the end of January on its decline has during February gained in strength, moving up slowly but steadily to 8, 11¼d, while on the other hand Cuba centrifugals which were selling at 2½e, and f. (2.48c, pp. lb.), at the closest c. and f. (3.48c. per lb.), at the close of January, are now valued at 2 1-32c. c and f., equal to 3.38c. landed for 9 test, based on sales of nearby Porto Ricos(thus widening the parity be-tween centrifugals and beet sugar to 49c. per 100 lbs., or 15c. per 100 lbs more than the 34c. per 100 lbs. granted Cuba by reciprocity. Of course, such a condition could only result from the continued pressure of twice the amount of sugar on the market that our refu-

ers can use or take care of. That the Cuban planter is beginnin o realize somewhat of the abnorma condition under which he is forcing his sugars to a sale is a little in evidence at the close of the markets here thi week, when it appears evident that the 2c. per lb., c. and f., point at whice buyers are aiming is to be contested the planter, the first sign of a lit bit of independence on his part.

We feel compelled to say, therefore, that the tide of decline has already turned, or is about to turn in favor of the seller from the present low level and that the improvement, once begun, will go on more or less stendily until the parity of beet sugar is reached in our market. The Cuba planter can rest assured

hat beet sugar is not coming down to his level, but that he can go up to the beet sugar level whenever he is disposed to do so, or is in a position to

Speculators this week have begun to see the advisability of taking some centrifugals for an advance. More of this special business would

PHONE BLUE 1801. be done if they could be assured that Cuba centrifugals were made so as to retain their tests through the summer months, if necessary to hold them that length of time for satisfactory profits,

In hazy weather the French cruiser Kleber, in making a sharp turn in the Mississippi, rammed and sank the Members Honolulu Stock and Bond small fruit stramer Hugoma, cutting her nearly in two. The Hugoma went to the bottom within five minutes after the eccident
